About the Course

The Certificate Course aims to develop the skills, which are required to deal with the legal and practical aspects related to regulation of ADR regime in India. The program aims to provide practical knowledge pertaining to ADR field and various requirements under diverse statutes.

The term Alternative Dispute Resolution (ADR) refers to a range of methods and processes of dispute resolution. Significantly, these methods are very rapidly transforming from mere 'alternatives' into preferred methods of resolving disputes. The promise of ADR methods is low cost, fast resolution and an outcome acceptable to both parties. Unfortunately, due to improper or ineffective use these methods often fail to deliver on these promises
