Report of the Webinar

The National Webinar on the "Implementation of the National Education Policy in Higher Education: Issues and Challenges" was conducted on Monday, 17th August 2020 at 1:00 p.m. and was joined by more than 500 participants from all over India through the platform of Google Meets as well as through YouTube Live and Facebook Live. It was a moment of immense pleasure and pride that Progressive Education Society's Modern Law College had organized its very first Webinar, and the topic of the webinar would not have been more apt than the one which was chosen which is "Implementation of National Education Policy in Higher Education: Issues and Challenges".

Right from its inception, Modern Law College has always been on the forefront in discussing various cross cutting issues in all the Seminars conducted under the able guidance of our Honorable Chairman, Prof. Dr. Gajanan Ekbote Sir. In these difficult times of COVID-19 pandemic, it was only through his insightful ideas that this Webinar has come to reality.

Before a year, the New Education Policy draft was floated. There were recommendations sought and we are proud to share with all that our Progressive Education Society was one of the first Educational Institute exclusively discussing on this and sending recommendations for the same. Keeping our tradition of being progressive and modern we have taken up this topic of discussing the implementation related issues and challenges of the National Education Policy focusing on higher education sector.

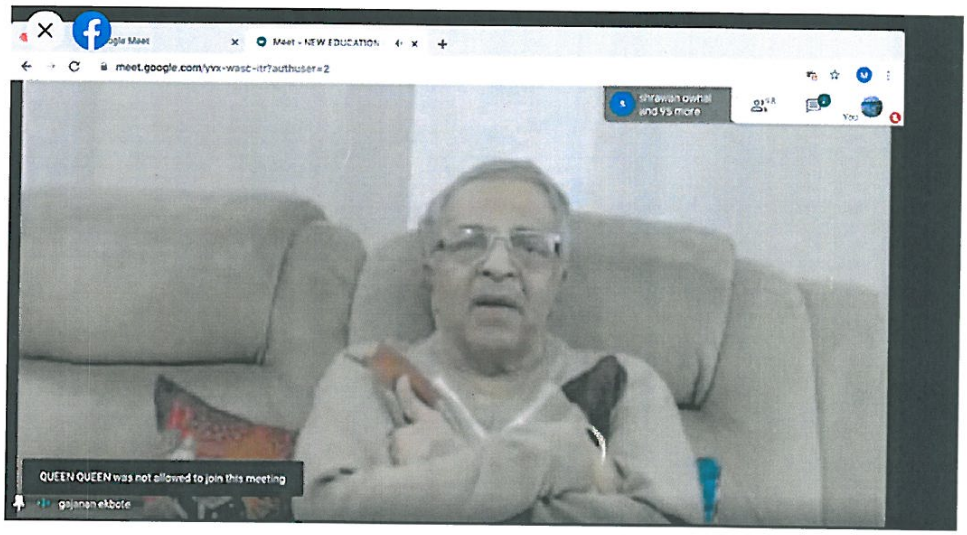

Some key features of the National Education Policy are :

- The aim will be to increase the Gross Enrolment Ratio in higher education including vocational education from 26.3% to 50% by 2035.
- Single-stream higher education institutions will be phased out over time, and all will move towards becoming multidisciplinary.
- The system of 'affiliated colleges' will be gradually phased out in 15 years.
- A university will mean a multidisciplinary institution that offers undergraduate and graduate programmes, with high quality teaching, research, and community engagement.
- The undergraduate degree will be of either 3 or 4-year duration, with multiple exit options.
- An Academic Bank of Credit (ABC) shall be established which would digitally store the academic credits earned.
- Higher education institutions shall move away from high-stakes examinations towards continuous and comprehensive evaluation.
- India will be promoted as a global study destination providing premium education at affordable costs.
- High performing Indian universities will be encouraged to set up campuses in other countries.
- Selected universities like those from among the top 100 universities in the world will be facilitated to operate in India.

- In every education institution, there shall be counselling systems for handling stress and emotional adjustments.
- Vocational education will be integrated into all school and higher education institutions in a phased manner over the next decade.

But all these key features are practically useless until we look into the implementation aspects of them. And therefore, our College organized this Webinar on "Implementation of National Education Policy in Higher Education: Issues and Challenges".

The Welcome address was given by Principal Dr. Sunita Adhav in which she elaborated on the need of discussion and deliberation on the Implementation of the New Education Policy in Higher Education and extended a warm welcome to all the Resource Persons and the Participants.

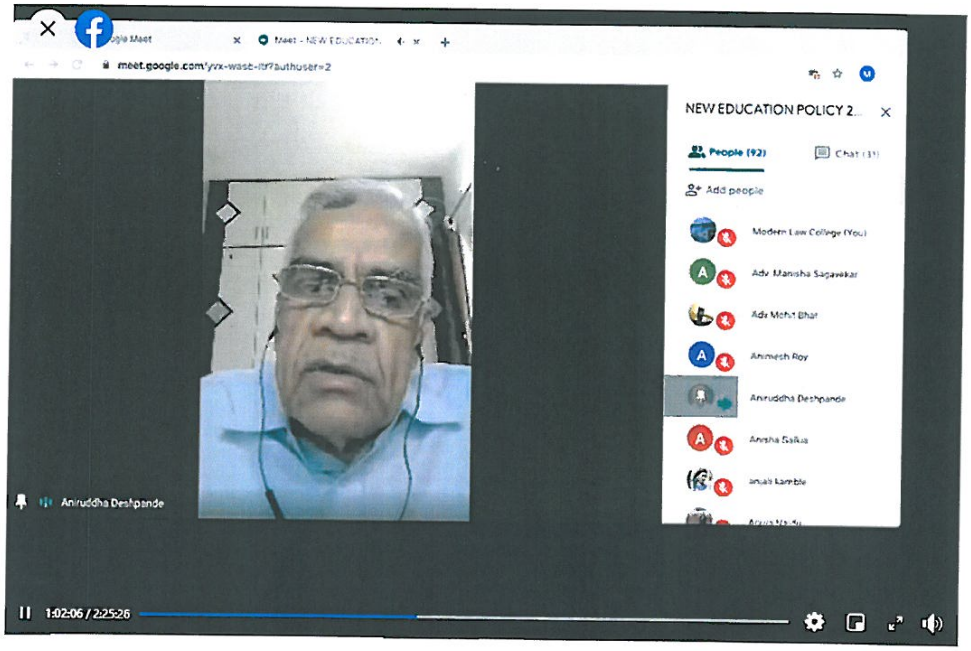

Prof. Dr. Gajanan Ekbote Addressing the Participants of the Webinar

The first Resource person was Dr. Gajanan Ekbote sir started with education as fundamental right of all Education is fundamental for achieving full human potential, developing an equitable and just society, and promoting national development. Changes in education policy is necessary for Providing universal access to quality education is the key to India's continued ascent, and leadership on the global stage in terms of economic growth, social justice and equality, scientific advancement, national integration, and cultural preservation.

Dr. Ekbote also highlighted the key aspects of new education policy such as Ensuring Universal Access at All Levels of schooling from pre-primary school to Grade 12;Ensuring quality early childhood care and education for all children between 3-6 years; New Curricular and Pedagogical Structure (5+3+3+4);No hard separations between arts and sciences, between curricular and extra-curricular activities, between vocational and academic streams;

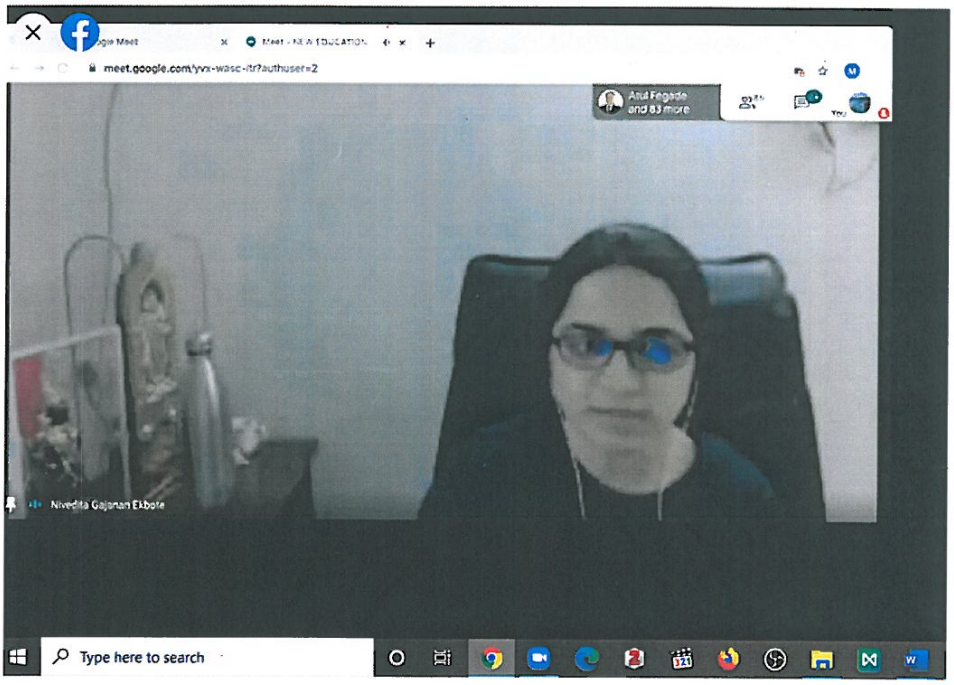

Establishing National Mission on Foundational Literacy and Numeracy; Emphasis on promoting multilingualism and Indian languages; The medium of instruction until at least Grade 5, but preferably till Grade 8 and beyond, will be the home language/mother tongue/local language/regional language.

He ended with focusing on the short comings of this policy and other grey areas under it In the National Education Policy 2020, language is a negative factor as there is a problematic teacher to student ratio in India, students willing to complete their graduation have to study for four years while one can easily complete his/ her diploma degree in two years. Concluding With the introduction of this new policy many changes have been made and one of those is the discontinuation of the M. Phil course. Even though there are many drawbacks to the new education policy, the merits are more in number. It is believed by many that by implementing these changes, the Indian academic system will be taken a step higher.

Prof. Aniruddha Deshpande Addressing the Participants of the Webinar

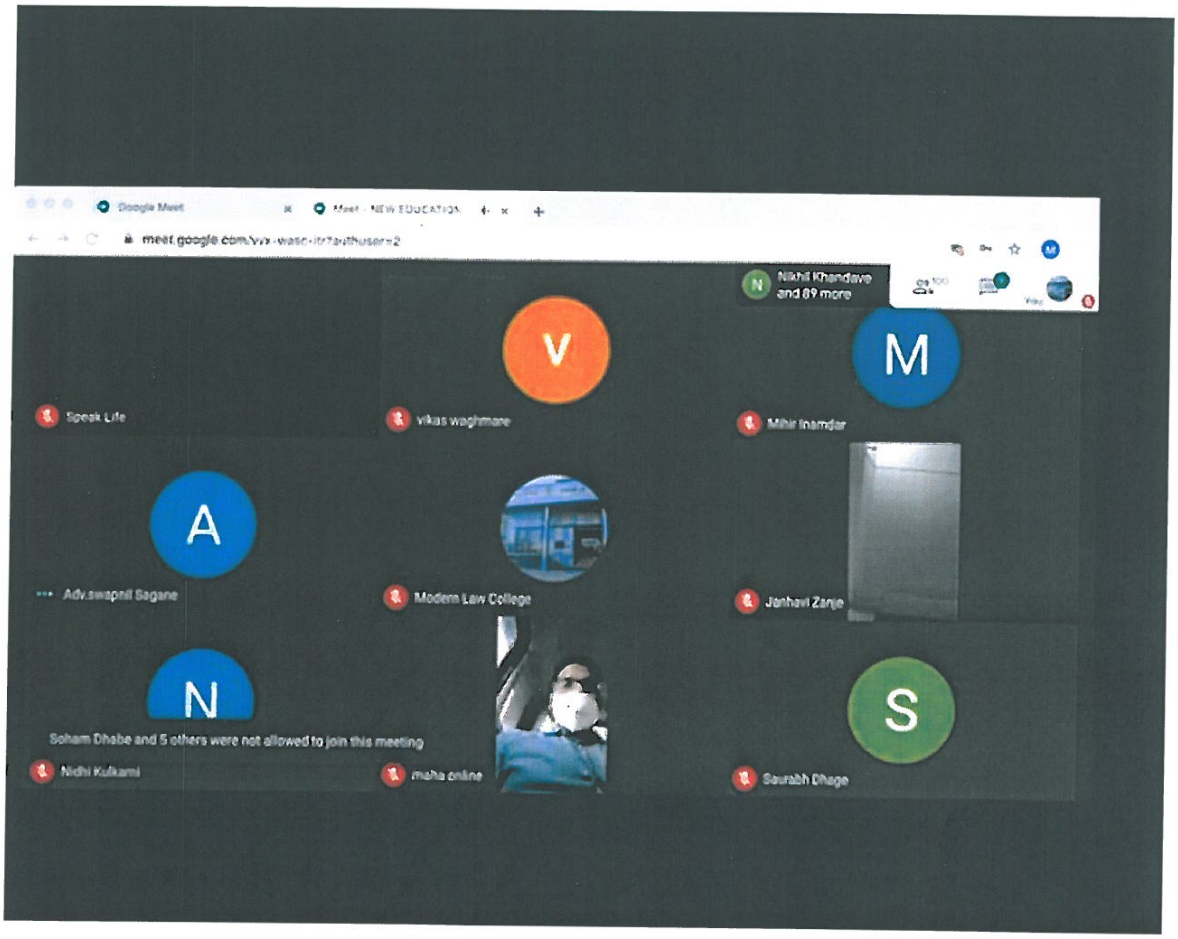

Second resource person was Prof. Aniruddha Deshpande who spoke on Multidisciplinary Approach and Multilingual Approach under the National Education Policy. The National Education Policy (NEP) 2020 focuses on key reforms in higher education that prepare the next generation to thrive and compete in the new digital age says sir prof. Aniruddha Deshpande. sir outlined the vision of India's new education system. NEP 2 focuses on five pillars: Affordability, Accessibility, Quality, Equity, and Accountability – to ensure continual learning. One of the key thrust areas of NEP is to encourage high R&D investments from government and private sectors. This will encourage innovation and innovative mindsets. To facilitate the same, there is a need for a strong industry commitment and close intervention with academia for industry led skilling / upskilling/ reskilling.

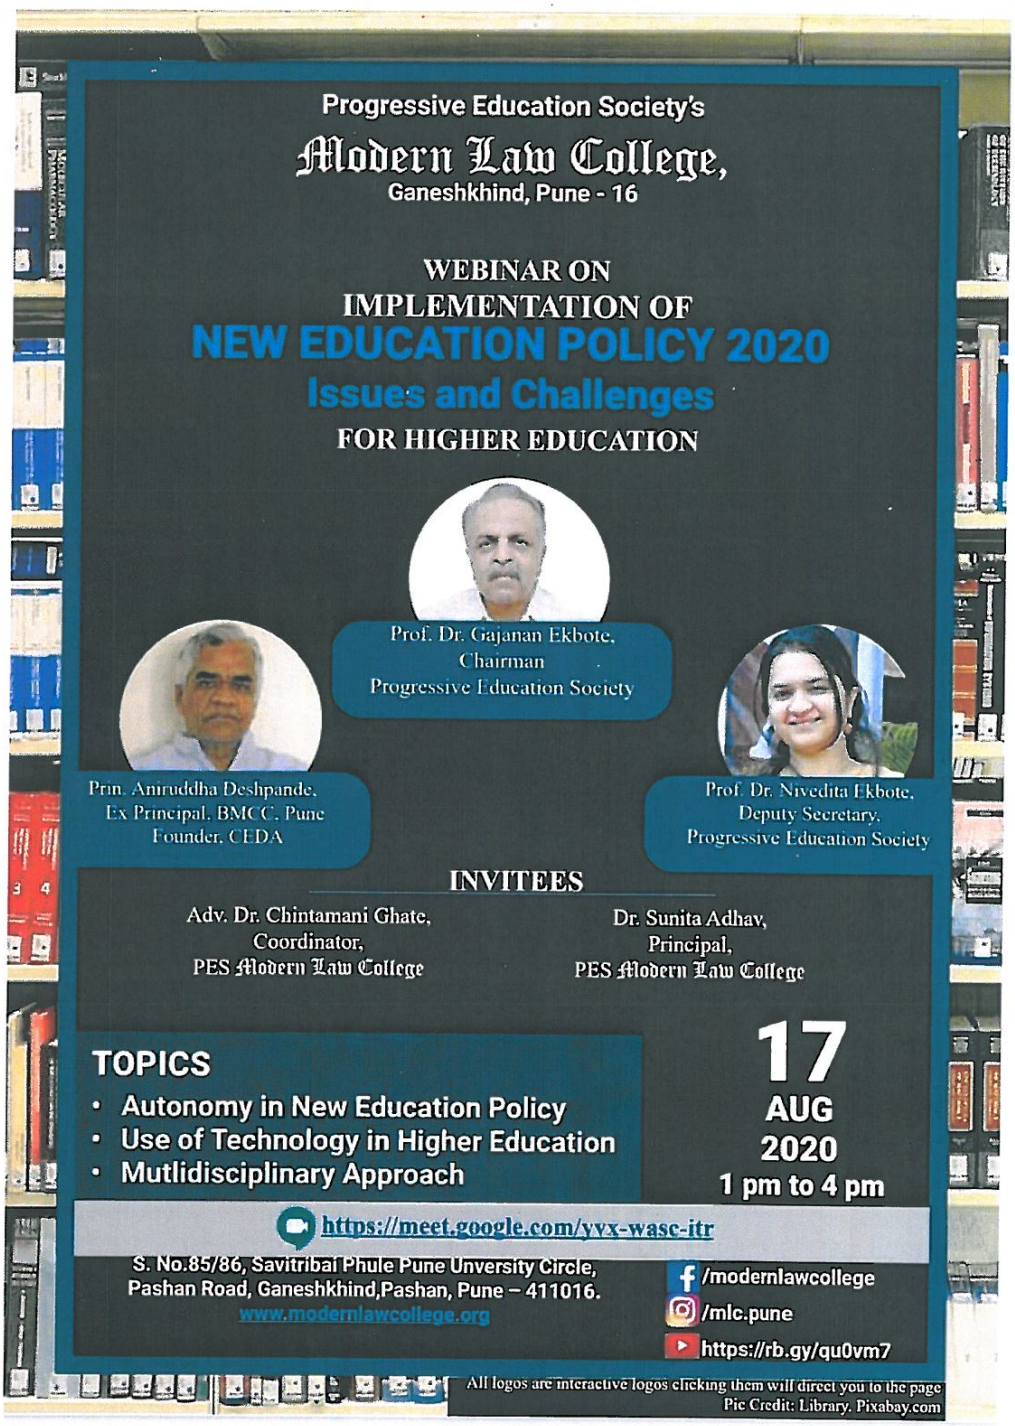

Dr. Nivedita Ekbote Addressing the Participants of the Webinar

Dr. Nivedita Ekbote was the third resource person she spoke on use of technology in higher education. She said that, Education will play a critical role in transforming the whole nation into a digitally empowered society and knowledge economy, technology itself will play a crucial role within the improvement of educational processes and outcomes; thus, the connection between technology and software the National Educational Technology Forum (NETF), are going to be created to supply a platform for the free exchange of ideas on the utilization of technology to reinforce learning, assessment, planning.

Residents from the nearby area were also invited and were present for the programme to know about the free legal aid services which they are entitled to being the fundamental right as guaranteed by the Indian Constitution. Article 14 guarantees all person equality and equal protection before the law within the territory of India. Accordingly, Article 39 A of the Constitution of India provides for free legal aid to the poor and weaker sections of the society to promote justice based on equal opportunity. The law students who are the future Advocates being the social engineers have the immense responsibility of delivering justice and hence are required to play their roles sincerely in implementing the various legal aid schemes and to ensure access to justice to poor and marginalized sections of the society and hence the present Legal Aid Programme had been organized by Modern Law College to create awareness about access to justice for all and the responsibility of the future lawyers to that effect.

The programme started at 10.05 am. Advocate Sagar Nevase Sir, Advocate Shahin Shinde Madam, Advocate Pragati Patil Madam, Advocate Asha Madam were the esteemed guest panel invited by Modern Law College to conduct the Legal Aid Programme and to guide the participants. The programme started with an inauguration function and the esteemed panel of guests was introduced by Assistant Prof. Prajakta. All the guest were felicitated by Modern Law College.

Our first guest Advocate Sagar Nevase Sir who has been the founding member and president of Janadalat for the last 15 years explained the concept of Janadalat. He then proceeded to explain the motive behind initiating such a noble concept of Janadalat in the year 2005. He wanted to address the technical problems faced by Junior Advocates entering the field of law and the clients alike. He further wants to address the misunderstanding and general perception about the Advocates and Courts among people that seeking justice through Court is very expensive as Advocates fees are very high and the Court procedure is very time and money consuming. In this situation, recognizing the need and urge of both the Clients and Advocates, Advocate Sagar Sir and his collegues started the concept of Janadalat. Janadalat first started operating from Bibvewadi, Pune from 6 pm to 8 pm. They started solving the problems relating to family disputes through guidance and counseling. Janadalat is involved in spreading legal awareness among people and guides them by giving legal advice and resolving their disputes through court mechanisms by charging them nominally or free of costs to poor or needy ones. He states that this service is not for the high-income groups. He then proceeded to narrate an incident about legal aid provided by Jan Adalat. The said incident took place at Chakan in which in an ongoing property dispute, the daughter had locked up her parents inside their house and even blocked the phone access to her mother. The parents tried to repeatedly reach out to the Police but they didn't take any cognizance. When they reached out to JanAdalat and when the JanAdalat intervened, the police finally took cognizance of the matter and released the

parents and a complaint was registered. He further said that many times the Police don't respond to such cases but there are Supreme Court guidelines and directions that whenever there is sexual harassment or abuse of women, Police are required to take notice of such crimes. Further, he said that JanAdalat also organizes frequent workshops for imparting legal knowledge and educating them about day-to-day legal issues like reading and understanding 7/12 extract of property, various legal documents related to immovable properties, various certificates, etc. They also conduct *"Samvad Satre"* on various legal aspects. During the Covid-19 lockdown, they conducted various webinars. Janadalat is the first to get the Vakil Gaurav Puraskar for their valuable contribution towards providing free legal services to society. At present JanAdalat has 4 centers in Pune and is planning to open 18 more in the coming days to serve more people by providing low-cost and free legal advice and assistance to the needy.

Advocate Shahin Shinde Madam was our next guest and speaker. She also has extensive experience in Criminal, Civil, and Family laws. She is also a professional Counsellor. She explained the concept of a good family and how it should be. An ideal person is recognized and identified by his upbringing and his family plays an important role in it. A person has a good reputation because of good family background. Good families form the base of society. There is a responsibility on part of all of us to keep good family values and relations intact. But nowadays, disputes and domestic violence within families are on the rise. The lawyers/Advocates must guide the litigants in matters of divorce, maintenance,

custody of children, premarital guidance, and other issues. Nowadays not only women but men are also facing problems of domestic violence and abuse. In a divorce by mutual consent, counseling plays a very important role. The following amongst many others are the solutions for domestic violence:-

1. Forget the past and come together.
2. Adjustment and solution
3. Last is divorce

It is a serious matter when the divorcing couple has a child. She also said that every child has a right to get the love and affection of his parents. Visiting rights do not ensure the right of the child to get the love and affection of his/her parents. She also further stated that pre-marital counseling nowadays is very important as the role of parents interfering in their children's married life is increasing which is further leading to a lot of problems/disputes in the family. To protect the marriages, undue and unwarranted interference of parents must be stopped completely.

Our next speaker was Advocate Pragati Patil Madam who has extensive experience of practicing for 28 years in family laws. She threw light on the procedure and the documentation required for filing a divorce application before the Family Court. She stated that the required documents if not presented within 8 days after filing the Application, the Application may be dismissed. She stated that the following are the main documents required for filing the divorce petition:

1. Marriage Invitation Card
2. Marriage Photographs
3. Copy of Marriage Registration if done
4. Proof of Residence
5. Birth Certificate of a child if the couple has an issue.

Section 10 of the Hindu Marriage Act provides for Judicial Separation which states that for seeking a divorce, a period of 1 year of judicial separation is necessary. Madam further explained the provisions regarding maintenance under S. 125 of Cr.P.C., the women can get maintenance even after the divorce. The various provisions regarding maintenance are given in sections 24 and 25 of the Hindu Marriage Act, 1956 and in Chapter III Section 18 to 28 of the Hindu Succession & Adoption Act, 1956.

Our next guest and speaker was Advocate Asha Madam. She has been extensively practicing in the field of Civil, Criminal, Labor, and Family Law for the last 30 years. She explained the provisions for affected women who can seek protection from police officers and Magistrates. She explained to us that there are shelter homes for those women who are facing serious physical, economic, and psychological problems. She further explained that there are special provisions for the protection of women and children in our Constitution. Even on an international level all over the world, there are United Nations Charters for the protection of women and children. If a woman after having endured violence runs away from her matrimonial home then she has a legal right to get all her valuable things like ornaments, documents, clothes, and other properties. She further stressed the importance of good family values for a better society. She said we worship Lord Shiva and his family along with Goddess Parvati, Lord Ganesha, and Lord Kartikeya. Lord Shiva's family has so many contradictions in his family i.e they all have their different carriers ("*Vahan*") and they all have their unique and different attributes. Irrespective of having these contradictions, they live in harmony and with love. Taking inspiration from Lord Shiva's family, we all should live in harmony and always strive to create a better society based on ideal values.

After the speeches of the expert panel, they were felicitated by Modern Law College for their valuable guidance. Professor Bhoite Madam thanked everyone and expressed gratitude on behalf of Modern Law College.

After expressing thanks and gratitude, the students personally interacted with the participants of the Legal Aid Workshop and informed them of all the benefits available to them through free legal aid. The students also made an effort to understand the problems of the participants especially women. The students also got the Legal Aid forms filled from the residents/people who had participated in the Legal Aid Workshop in which they had to mention their details and any family issues/disputes which required legal assistance.

The programme concluded at 12.30 pm. It was very well planned and organized. The programme proved very fruitful for the students as they got valuable guidance and important insights regarding the Legal Aid Services. Practical workshops like these play an important role in imparting valuable and practical education to law students and shaping future lawyers. The students do look forward to attending many such programmes and benefit from them.
