

MEMORANDUM OF UNDERSTANDING

Between

P.E. Society's

Modern Law College, Pune

AND

Modern College of Pharmacy, Nigdi, Pune

PREAMBLE:

Progressive Education Society's Modern Law College was established in the year 2003 with a view to impart quality legal education to the students and create Value-based and rational lawyers. The college is permanently affiliated to the Savitribai Phule Pune University, approved by the Bar Council of India and accredited by NAAC Bengaluru with a B++ Grade with a CGPA of 2.84. Modern Law College is a recognized Institution under the 2(f) and 12B of the UGC Act. The College currently conducts the BALLB, and LLB courses at the UG level, four diploma courses in Cyber Law, Intellectual Property Law, Labor Laws and Taxation Law, and LL.M course at the PG level. The college also has a Ph.D. Research Centre. The College is one of the leading Institutes of Legal Education in Pune.

And whereas, the latest one added to the list of colleges for academic collaboration Modern College of Pharmacy, Nigdi which established in 1998.

In this regard, Modern Law College as the **FIRST PARTY**, is committed to achieving academic collaboration with institutions of excellence in the field of Law and social sciences. This MoU will go a long way in fostering cooperation between both Colleges, and provide opportunities to both Colleges to learn from the experience of each other. It will be a landmark step forward in both college's journey towards becoming a major player in global innovation and will further the objectives of National IPR Policy, 2016"

SCOPE OF AGREEMENT:

This memorandum of understanding has been signed between Progressive Education Society's Modern Law College (MLC) as the **First Party** and Modern College of Pharmacy, Nigdi, Pune (MCP) as the **Second Party** for the purpose of academic/institutional collaboration that will encompass the extension of legal support to faculty members of MCP in the matter of acquiring Intellectual Property Rights on the inventions they will invent. In addition to this, active efforts will be made to develop joint training and research programs that will be pursued in a collaborative

spirit. The collaboration between the first party and the second party shall be subject to the following: -

I. TERMS AND CONDITIONS OF COOPERATION:

- a. Modern Law College and MCP shall collaborate in mutually agreeable events, teaching, training, and research, wherever feasible. Such collaboration will be based on mutually agreeable terms, and conditions expressly agreed for each of the collaborative efforts;
- b. The MoU will facilitate the exchange and dissemination of experiences and knowledge on Intellectual Property among themselves.
- c. The MoU provides for the extending legal information from first party to second party on processes for registration and examination of applications for patents, trademarks, copyrights, geographical indications, and industrial designs, as well as the protection, enforcement and use of IP rights.
- d. It also provides for the exchange of information on the development and implementation of automation and modernisation projects, new documentation and information systems in IP and procedures for management of IP office services.
- e. It provides for Promoting the research and development activities as mutually agreed.
- f. The Ph. D scholars of both parties shall be allowed to make use of the library resources of each other and to have academic interaction with the faculty.
- g. Research Scholars and the teaching faculty of both parties will explore the possibility of taking up collaborative research work and also apply for funding from national and international agencies, governments, and other funding agencies.
- h. Any financial implications emerging out of such collaborations (other than the fees of the students) shall be worked out and the decision will be taken with mutual agreement.
- i. In case of any dispute that may crop up during the execution of the MoU, the matter shall be settled through arbitration, to the Arbitration Committee of a member nominated each by both the parties and one member jointly nominated by both the parties.

II. AREAS OF COOPERATION:

This Memorandum expresses a mutual desire by MLC and MCP to cooperate in building intellectual and research capacity. Additional areas of co-operation may be added by the written consent of both the parties. Both the parties will act in good faith to ensure that the objectives in this memorandum are realized.

III. TERMS OF AGREEMENT:

Progress in realizing the terms and conditions referred to herein will be reviewed periodically as mutually agreed and the memorandum may be amended at any time by mutual consent in writing.

IV. INTELLECTUAL PROPERTY AND CONFIDENTIALITY:

- a. In respect of each project and programs of co-operation, the parties shall negotiate and mutually agree in writing on their respective rights to intellectual property and commercial exploitation of the same (including without limitation, trademarks and service marks, copyright, patents, designs, and confidential information pertaining thereto)
- b. Neither party shall, at any time disclose to any third party any confidential information of the other party which is acquired within the course of activities under this Memorandum, a collaborative project or a programme, without the prior consent of the other party.

The Confidentiality obligations herein will not apply to information in the public domain, information in the possession of the receiving party prior to the disclosure of the information; information which is independently developed by the receiving party; information required to be released by law; and information which is rightfully received by the receiving party from third parties without any breach of confidentiality obligations.

V. NON-BINDING NATURE OF MEMORANDUM:

Nothing in this Memorandum shall be construed as creating any contract, partnership, agency or other legal relationship between the parties. This Memorandum is only a non-binding statement of intent to foster genuine and mutually beneficial collaboration.

VI. TERMINATION:

- a. This Memorandum shall come into force immediately upon its signature by the parties,
- b. The validity of this Memorandum of Understanding is initially for a period of five years from the date of its execution, and the same can be further extended on mutual agreement.
- c. Either party can terminate this Memorandum of Understanding by giving six months' written notice to the other party without jeopardizing the coursework or registration of any institution's students. The implementation and/or continuance of programs or projects established pursuant to this memorandum prior to the effective date of termination shall not be affected by the termination of this memorandum.

IN WITNESS WHEREOF, this Memorandum of Understanding is executed by the parties on the date of signing the Memorandum of Understanding by the two parties.

Inquiry Description:

Dear Madam/Sir,

I am in need for filing a patent
as follows - Application of celite in liquid
technique :- The liquid technique with Celite
is a novel and capable additives for
enhance the solubility and increase the dissolution
rate and bioavailability with the celite liquid
form.

Kindly advice me Regarding how to do
the process for patent.

APBibave
forwarded for providing
advise.

Guidance to Enquiry

Inquiry No: 1

Date: 16/2/2016

Inquiry for patent filing process
Advice Given

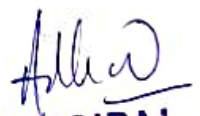

Inventor was guided & advised on various different basic concepts related to Patents and its filing procedure with Patent office. Inventor is advised about not to disclose the invention in public domain. Member of this centre has explained different forms needed to be filled with patent office. & Also helped them to fill those forms.

- 1] Form 1 - Application for Grant of Patent
- 2] Form 2 - Provisional / Complete Specification
- 3] Form 3 - Statement and Undertaking Under Sec 8.
- 4] Form 5 - Declaration as to Inventorship.
- 5] Form 9 - Request for Publication
- 6] Form 18 - Request / Express Request for Examination.

(57) Abstract :

The Liquisolid technique with Celite is a novel and capable addition towards such an aims for solubility enhancement and dissolution improvement, thereby it increases the bioavailability. It contains liquid medications in powdered form. This technique is an efficient method for formulating water insoluble and water soluble drugs. This technique is based upon the admixture of drug loaded solutions with appropriate carrier and coating materials. The molecular dispersion of drug in the formulation and leads to enhance solubility. By using hydrophobic carriers (non-volatile solvents) one can modify release (sustained release) of drugs by this technique. Liquisolid system is characterized by flow behavior, wettability, powder bed hydrophilicity, saturation solubility, drug content, differential scanning calorimetry, Fourier transform infra red spectroscopy, powder X-ray diffraction, scanning electron microscopy, in-vitro release and in-vivo evaluation. By using this technique, solubility and dissolution rate can be improved, sustained drug delivery systems be developed for the drugs.

Subject: Appreciation for your guidance and suggestion in filing the Indian patent

Respected sir/ Madam,

I am very much thankful to you and team of Centre for Intellectual Property Protection and Promotion, PES Modern Law College, Ganeshkhind, Pune for given valuable advice and guidance for my patent and due to your guidance, I got way that how to filled the patent and I done changes as per your suggestion in claim accordingly and it has accepted and published in gazette of Indian patent Govt of India on dated 05/05/2017.

Once again I am thankful to you and your organization for your remarkable suggestion and guidance for filling the Indian patent and you will help me in future.

Thanking You,

Inquiry Description:

Respected sir/Madam, I

I need help for/advice for how to write
the claim and how to do the process for
filling the patent. Regarding, development of
norendoxifen-multi-walled carbon nanotubes.
multi-walled carbon nanotubes are unique.
three dimensional sp^2 hybridized carbon
nanomaterial have attracted and promising,
alternative, safe and effective nano-architecture
to biomedical applications.

Requesting you kindly advice for the same.

Thanking You.

Advice Given for filing of patent application
& claims drafting.

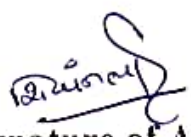

Member (Advisor) of this centre has carried out Patentability search with the help of Inventor. In Patentability search, novelty and inventive step involved in this invention was discussed.

Inventor is guided and helped to fill different forms like Form 1, Form 2, Form 3, Form 5, Form 9 & Form 18.

Guidance was also provided for drafting of claims of this invention.

Process of filing of patent application was also discussed thoroughly with time frame.

(57) Abstract :

Multi-Walled Carbon Nanotubes are unique, three dimensional sp² hybridized carbon nanomaterial have attracted tremendous attention as valuable, promising, alternative safe and effective nano-architecture to biomedical applications due to their unique physicochemical properties such as biocompatibility, non-immunogenicity, high loading efficiency, high aspect ratio, structural flexibility, non-cytotoxic and non-biodegradable nature. Norendoxifen is a potent aromatase inhibitor and that it has good selectivity for aromatase versus other cytochrome P450 enzymes. The potent aromatase inhibitory activity together with the high binding affinity for both estrogen receptor (ER- α and ER- β) support the further utilization of norendoxifen as a lead compound for the development of possible dual aromatase inhibitors (AI)/ selective estrogen receptor modulator (SERM) agents. Conjugate comprise of Anticancer drug Norendoxifen, Multiwalled carbon nanotube, Polyoxyethylene bis(amine) and Estradiol valerate. It contains Estradiol valerate as targeting vector so it provides targeted anticancer drug delivery. Conjugate also provides prolongs blood circulation time because of Polyoxyethylene bis(amine) it contains which prevents phagocytosis of conjugate. Multiwalled carbon nanotube fragments looks like needle like structure gives porosity to cancer cell and exhibit good translocation of drug inside the cancer cell.

CERTIFICATE OF GRANT INNOVATION PATENT

Patent number: 2021106602

The Commissioner of Patents has granted the above patent on 24 November 2021, and certifies that the below particulars have been registered in the Register of Patents.

Name and address of patentee(s):

Mohammed Rageeb Mohammed Usman of Associate Prof., Smt. Sharadchandrika, Suresh Patil College of Pharmacy Chopda, Jalgaon Maharashtra 425107 India

Title of invention:

A METHOD OF PREPARATION OF AQUEOUS AND METHANOLIC EXTRACT OF TAMARINDUS INDICA FOR ANTIMALARIAL ACTIVITY

Name of inventor(s):

Usman, Mohammed Rageeb Mohammed; Khan, Majid Shabbir; Patil, Sunila Atul and Chaudhari, Sheetal Dhiraj

Term of Patent:

Eight years from 23 August 2021

NOTE: This Innovation Patent cannot be enforced unless and until it has been examined by the Commissioner of Patents and a Certificate of Examination has been issued. See sections 120(1A) and 129A of the Patents Act 1990, set out on the reverse of this document.

Dated this 24th day of November 2021

Commissioner of Patents

S. Phauhan

Blog Writing Report 2020-2021

Date: 31st August 2021

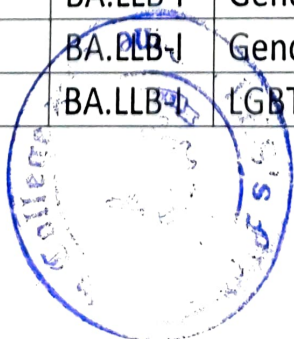

As per the directions of the University Grants Commission, Modern Law College has established the **Gender Champions Club**. The promotion of Gender Equality is the primary purpose of creating this club. It is expected from this club to conduct activities by which the message of Gender Equality will reach all the strata of society. The college conducted an online Intra Collegiate Blog Writing Activity in August 2021. The topics for this activity revolved around the subject of Gender Equality. The themes for the competition were Gender Equality and Empowerment of Woman, Role of Society in promoting Gender Equality, Gender Discrimination: History and Culture, Gender Equality and Law.

Ten students of BA-LLB I participated in this activity where they submitted their original blog work to be published on the official college WordPress website. The blogs were screened and edited by **Asst Prof Akshay Ugale** and **Asst Prof Amal Varghese** for content alterations and grammatical refining. After the process, these blogs were published on the official college website.
